Rare Chromosome Disorder Support Group

Unique
...but not alone

christmas cards **2010**

Please consider buying your cards from *Unique* this year and you can help improve the lives of children and families affected by a rare chromosome disorder.

Unique is a source of information and support to families and individuals affected by any rare chromosome disorder and to the professionals who work with them. Established in 1984, *Unique* is a UK-based charity (1110661) but welcomes members worldwide.

Individually rare chromosome disorders are indeed very rare but collectively they are common. In fact at least one in every 200 babies is born with a rare chromosome disorder, more than one in every 1,000 babies having symptoms from birth or early childhood, the rest being affected when they grow up and try to have babies of their own.

Unique offers contact with families with an affected member who has the same rare chromosome disorder or who has similar symptoms or practical concerns, irrespective of specific chromosome disorder. It produces a comprehensive range of family-friendly, medically-verified leaflets on a wide variety of rare chromosome disorders. There is a network of local contacts worldwide and *Unique* promotes awareness of rare chromosome disorders to the general public and professionals. The group co-ordinates families to assist in research, has password-protected discussion forums for registered members and also has social networking sites. *Unique* publishes a magazine three times a year and holds a regular conference and study weekends for affected families.

Thank you for your support

For more information please visit our website www.rarechromo.org
or telephone 01883 330766

Please complete and return the order form overleaf with your cheque made payable to '*Unique*' and send to:
