

Spanish translations

Unique has a growing list of guides available in Spanish. This is thanks to the Spanish native speaker translators who do the hard work of translating. *Unique* guides are translated on request by a native speaker who is familiar with the particular disorder. The translation is then reviewed by a native speaker geneticist or doctor.

You can find these guides on our website in Spanish:

1p36 deletion

7q11.23 microduplications

Duplications of 7q

Trisomy 9 mosaicism

11q deletion disorder Jacobsen syndrome

22q13 deletions

Array CGH

Balanced Translocations

In preparation

Kleefstra syndrome

16p11.2 microdeletions

If you are a native Spanish speaker and would like to translate a guide for us, please email Prisca at prisca@rarechromo.org or Sarah at sarah@rarechromo.org
